ing on Congress not to repeal prohibition, but to enforce prohibition more vigorously, alleging that crime will increase with the repeal of beer and wine.

The association of ministers can hardly be mistaken, but it is not easy to imagine how the crime could increase much.

Here are clericalism believe that there is less crime now than before prohibition started?

But Sunday, always sincere and fervent, made an impassioned plea for more and better prohibition, and feeling what he called the source of our sins.

DID you ever hear an aged, rheumatic person describe his symptoms in painful detail? Well, street was such a person yesterday. There was the lowest price on record for the pound, the lowest for silver, all time lows in some cotton options, wheat trembling on the brink, bonds soft.

In that land of "water, water everywhere" there is gloom now. Before last week's fall in selling, and everything will be better. "The thought then when they were free. He did not, but he will say they are high."

HINDENBURG, justly called "Germany's Rock of Gibraltar," has selected but not named the cabinet that will carry Germany through the winter.

"Bavarian economies and increased unemployment," said the German press, "are the cause of the German crisis."

GENEVA reports that Japan will demand revision of the 2-3-3 ratio of the London conference, making Japan inferior to Britain and this country, on the sea, as it is on land.

Japan will demand abolition of aircraft carriers and a larger quota of submarines for Japan.

Why not let Japan and other powers build whatever they want while this country builds whatever it needs, without asking anybody's advice or consent?

What we need is such weapons as would enable us to destroy the shipping and principal cities of any nation foolish enough to attack us, and that is what we ought to have.

#### Visit Graveyard Of Radio Tubes On North Side

Radio tubes—tombstones here—there—nowhere. The final resting place of defective and "dead" radio tubes that have killed many a good program.

Such is the setting of a very unusual and interesting display in the "window of the C. B. Fraser Radio Shop, Whyte Ave. Radio tubes have been tested and found "dead" and are piled in one neat "tube graveyard" where radio tubes have met their Nemesis.

In the background, over a skull and crossbones, hangs a placard advising radio owners to have their tubes tested regularly.

Moving on to the second window, one would not realize it was one of many radio tubes on the market, until they have taken a hasty glance at another interesting display, prepared by the Service Department of the store. Radio tubes of various sizes, from the humble "pentode" to the large 900 watt transmitter tubes, are on display. In the background is a necessary vapor heater, capable of supplying current to five standard radio sets, or supplying a small valve with direct current. On either side are various forms of lamp holders, used for battery lighting, and are being operated.

The windows are well worth a trip to see.

## Prosperity Is Tangled Up In Shirt Tails

CONTINUED FROM PAGE ONE

CINCINNATI, O., Nov. 30.—A panacea for unemployment in Britain's cotton mills was advanced today by William Heintze, British federal delegate to the American Federation of Labor convention.

If we could just get the shirt-tails to work in his shirt-tails," Holmes said earnestly, "we would have solved the problem."

#### BRITISH NOTE

CONTINUED FROM PAGE ONE

way to get quick results is to remove from unemployment statistics the number of men who are in the army, navy, and air force. This would be a fairer picture of the situation.

Although this week's meeting of the committee, which was held in London, was a success, it was not a triumph. The committee's report, which was presented to the House of Commons, was a compromise between the two main parties.

The final form was not adopted last night, and the committee's report will be held today.

The cabinet meeting followed a conference between Premier MacDonald and the King at Buckingham Palace.

While finishing touches were being put to the note, generally considered a request for suspension of the December payment of \$50,000,000 for review of the whole Anglo-American debt funding agreement, the pound sterling dropped to its new all time low, \$1.45. It closed at \$1.45.

NO DEFAULT HINT

While it is understood Britain will press its case for revision in strong terms, there was a distinct hint that the December payment would be made promptly if the United States Congress does not yield.

In response to the British demand, there has been a hint of default.

Contents of the new note will not be published until the time agreed upon by the two governments. It will be made public simultaneously in both capitals.

The note is a considerable discussion of the method of payment to be adopted in the event that the United States insists on a revision.

Among the men advocating payment to gold which would come from the note cover of the Bank of England, were Sir Robert Horne and Winston Churchill, former secretary of the exchequer.

LINKED WITH ARMY

Lead heading, who recently returned from the United States, took part in a debate last night in the House of Commons.

He extended Britain's position, which had been strengthened by the fact that the United States had announced a "policy of co-operation or assistance" to the American policy of armaments reduction by control of military expenditure.

Lead heading said the four was expressed in America that if the war was ended, the reduction of European powers would be left with Europe free to spend on armaments.

## DOG PRICES IN PAS TAKE DROP

CONTINUED FROM PAGE ONE

THE PAS, Nov. 30.—Dog prices have slumped to a new low level in the northern cattle capital. A beautiful team of huskies plus harness and Alaskan sled sold for \$75, as compared with about \$200 the outfit would have fetched three years ago.

Railways and airplanes have put an end to freighting with dogs.

#### Beverly Citizens Wait On Council

The executive of the Beverly Citizens' Protective Association waited upon the Beverly Council at the regular monthly meeting on Monday.

Their request for the use of the town hall for their meetings was granted. A request for information concerning funds being used by the Beverly council was also granted.

The executive expressed itself as satisfied to have council proceed to the three matters submitted to the arrangements they had already made.

A full survey of Saskatchewan, Canada and Germany.

Now bearing completion.

## B. C. MILLMEN QUEST IN OLD COUNTRY FAILS

Lumber Envoys Throw Up Sponge—Market Left To Slaves

LONDON, Nov. 30.—A delegation representing British Columbia timber interests which had sought an increased market in the United Kingdom for British Columbia woods announced last night its negotiations had broken down and that the members would sail for home today.

In a long statement handed to the press last night the delegation said that while it had made considerable progress in the way of extending sales it had found competition from the timber producers of northern Europe set such a low level for prices in Great Britain that, unless some change was made in existing conditions, it would be impossible to export any material increase in shipments of British Columbia timber to this country.

#### HARD TO COMPETE

"It is practically impossible for an ordinary commercial enterprise to compete with competitors who are controlled or state aided," the statement said.

"Our delegation," it continued, "was based on negotiations with representatives of the Timber Trade Federation and at one time felt reasonably hopeful something could be done in the way of bulk sales. Unfortunately the negotiations broke down."

"The actual and potential supply of timber from the producing areas that therefore supplied the market have kept, and are keeping, the level of prices below a level that can successfully be met by Canadian producers," it added.

"The delegation," it continued, "was based on negotiations with representatives of the Timber Trade Federation and at one time felt reasonably hopeful something could be done in the way of bulk sales. Unfortunately the negotiations broke down."

#### FORD MAKING GOOD PROGRESS

DETROIT, Nov. 30.—Henry Ford's recovery from the major surgical operation he underwent last Saturday has been so rapid that he is now able to walk and to leave the hospital no later than December 10.

The automobile magnate was operated upon for a strained femoral hernia and an inflamed appendix.

"Friends of Mr. Ford who called on him expressed his opinion to be his regular self and looked as well as he did before the operation."

He sat up in bed for a time yesterday and was able to walk to the telephone booth. He also was informed of telephone calls received from the King of Belgium, Mussolini and other persons.

## He Fights Brave Battle HOLDS BRUSH IN HIS TEETH As He Paints Pictures

TORONTO, Nov. 30.—Earl Bailly, 27-year-old Lunenburg, N.S., youth who paints with the brush in his teeth, visited Toronto today and it is known he aspires to be a "great artist."

Bailly's legs and one arm are completely paralyzed—the result of infantile paralysis when he was two years old. The remaining arm is amputated enough to serve as a cigarette holder.

He is self-supporting and that is showing his rapid progress in painting. He has painted many pictures in his lifetime.

He said he wants to be recognized as an artist and not as a cripple. He has said my work has been called "brilliant."

Bailly is accompanied by his younger brother, Don, 15, who acts as chauffeur, valet, butler, artist and all-around handy man.

Bailly's painting ability has been recognized for a long period of years. He began scribbling and drawing pictures with a pencil in his mouth as a boy of three or four.

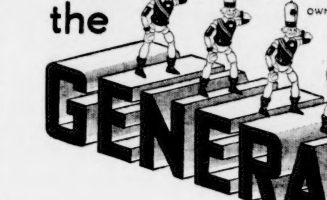

He later used crayons, and, encouraged by his mother and later by artists of note, began serious painting.

His painting ability has been recognized for a long period of years. He began scribbling and drawing pictures with a pencil in his mouth as a boy of three or four.

#### Artist Says Hitler Man For Germany

TORONTO, Nov. 30.—The man to lead Germany must look to lead her from a make of economic arrangements is Adolf Hitler, in the opinion of Earl Bailly, artist who painted Pope Pius portrait in 1928.

## With an eye to Christmas

**Hear the BELIEVE YOUR OWN EARS**

**G-E Console Model J-105 \$129**  
Complete with 10 New Type G-E Radiotubes

## ★ 25 Times a Winner in 25 Competitive Tone Tests!

Twenty-five sweeping tone-test victories mark the General Electric Radio as the gift of gifts for the whole family.

Now—before the Christmas rush starts—make your own comparison. Hear the General Electric and be convinced that it alone will

★ Absolutely fair tests. Each time a General Electric was pitted against three other popular makes costing the same as, or more than the G-E. All sets hidden by a screen. No trade names mentioned—only referred to by number only and operated by an independent service man. Listeners compared the tone and voted by secret ballot.

out resorting to the mabe-believe tailoring racket!

There is no substitute for tailoring. It cannot be sent. Hundreds of thousands of dollars are being taken out of Western Canada for clothes makers claiming hand-tailoring for clothes that are not.

Our unique demonstration of prices on La Fleche Custom Clothes greatly reduced.

## Al Smith, Knees Shaky, Makes His Debut As Singer

Happy Warrior Warbles  
Before Great Throng  
For Charity

By ROBERT ST. JOHN  
Associated Press Staff Writer

NEW YORK, Nov. 30. — With knees shaking and voice trembling "Al" Smith made his debut last night as a concert singer.

Before 1,000 men and women at a benefit "communion" fund-raiser, the former governor of New York's colorful political warbler asked his vocalistic fans on a husky rendition of his famous campaign song. The "Sidekicks of New York."

The affair had all the aspects of an important premiere. The former governor of New York's colorful political warbler asked his vocalistic fans on a husky rendition of his famous campaign song. The "Sidekicks of New York."

Smith walked onto the stage with the embarrassment of a school girl about to recite a poem. The spotlight beat down on him. Perspiration rolled off his forehead.

With a final roar, the song was ended. The applause was thunderous. Smith walked out from the stage but got no farther than the wings.

Wait and I'll see the profits of the show. The air of one of New York's most famous men was in the air.

He and the orchestra leader, heard each other's shuffling, heard each other's shuffling, heard each other's shuffling.

Then the orchestra leader started and Smith, beginning to tremble, started to sing. He sang a verse of "The Bower."

He sang the song in an operator and a college cheer leader combined. When the audience joined in the chorus he let his voice out full blast, and then, without thinking the customary stage bow, he fell back into the wings. His assistant for a hospital fund drive was over.

Bandits Loot  
Two Tills of \$175  
And Then Escape

WINNIPEG, Nov. 30.—Two armed bandits who raided the Bessborough Hotel, Portage, Manitoba, last night, each had a cash register to their credit with a total of \$175 in loot and silver.

Forcing D. J. Bessborough to let them in, the bandits entered the hotel. They were interrupted by the manager, who was in the store. The women, at gunpoint, were forced to the back of the store. The bandits quickly emptied the tills, fled.

Start Probe Of  
Steamer Mishap

SAULT STE. MARIE, Ont., Nov. 30.—Captain A. A. Hudson, president of the Northwestern Transportation company, is en route to this city on his way to investigate the accident to the steamer Georgian, which ran aground on Long Island, near Munising, Mich., while heading for Sault Ste. Marie.

The vessel is not regarded as being in a dangerous position.

AMONG RE-ELECTED

TORONTO, Nov. 30.—W. A. Aron, chairman of the United Farmers' Cooperative Company at the annual meeting of that body here today, was re-elected president.

W. C. Good, former vice president, and H. C. Currie, Strathgairn, again elected to the executive. J. M. Morrison was re-elected secretary.

## TROUBLE OVER PERSIAN OIL SNAG LOOMS

Annulment of Anglo-Persian Company's Concession Causing Worry

NEW YORK, Nov. 30.—A long, difficult diplomatic struggle with Persia as a result of annulment of the Anglo-Persian Oil Company's concession is foreseen by the British government, says the New York Times today in a special cable from London.

"Official circles here are still hopeful the Anglo-Persian Oil Company may induce the Shah's government to permit the annulment without diplomatic intervention," the Times says.

Nevertheless the British have been quick to realize that this is not an ordinary business dispute but an outbreak of Persian nationalism which will not yield easily to ordinary methods of treatment.

ORDERED MEASURES

"From an official of the British government in London it was learned Persia had ordered quantities of munitions in the United States, a consignment of aeroplanes engines and other military equipment from Hartford, Conn. for shipment to Persia, and that the Shah's government is on the point of granting a virtual monopoly of the Persian automobile and rubber trade to the German Junkers and Firestone interests directly through the heads of British competitors."

"Less than two months ago the British Imperial Air Force had been ordered to alter its route to India because of the impossibility of flying its long-term permits from the Persian government. The result is that the Arabian shore of the Persian Gulf, having been Persian territory, is almost entirely to the German Junkers Company."

"It is believed likely that Persia's new policy was influenced by the recent success of the neighboring government of Iraq in winning better terms from the British Petroleum company and the British Oil Development Corporation, which is now being largely controlled by Anglo-Persian interests."

"The Persian government insists it is willing to bring the oil dispute before any tribunal in the world for arbitration. The Persians deny the British statements that the present depression and diminishing royalties have provoked them to such a step. They assert the Persians are not bargaining with oil, but with the income from royalties, and they point to their 1,000,000 pound revenue, held in London, as proof of this."

"The Shah's government charges the Anglo-Persian Oil Company with exploiting the country, not only in pre-war years when Persia was notoriously weak, but even after the war, when the government had taken over the oil industry in Teheran."

"Originally the 60-year concession provided for royalties of 16 per cent, which is slightly more than the average figure in oil concessions elsewhere."

"From 1911 to 1919, however, the Persians assert, they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties."

"The Persians assert, they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties."

"The Persians assert, they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties."

"The Persians assert, they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties."

## Busy Bird Stork Will Visit Jobyna

Annulment of Anglo-Persian Company's Concession Causing Worry

NEW YORK, Nov. 30.—A long, difficult diplomatic struggle with Persia as a result of annulment of the Anglo-Persian Oil Company's concession is foreseen by the British government, says the New York Times today in a special cable from London.

"Official circles here are still hopeful the Anglo-Persian Oil Company may induce the Shah's government to permit the annulment without diplomatic intervention," the Times says.

Nevertheless the British have been quick to realize that this is not an ordinary business dispute but an outbreak of Persian nationalism which will not yield easily to ordinary methods of treatment.

ORDERED MEASURES

"From an official of the British government in London it was learned Persia had ordered quantities of munitions in the United States, a consignment of aeroplanes engines and other military equipment from Hartford, Conn. for shipment to Persia, and that the Shah's government is on the point of granting a virtual monopoly of the Persian automobile and rubber trade to the German Junkers and Firestone interests directly through the heads of British competitors."

"Less than two months ago the British Imperial Air Force had been ordered to alter its route to India because of the impossibility of flying its long-term permits from the Persian government. The result is that the Arabian shore of the Persian Gulf, having been Persian territory, is almost entirely to the German Junkers Company."

"It is believed likely that Persia's new policy was influenced by the recent success of the neighboring government of Iraq in winning better terms from the British Petroleum company and the British Oil Development Corporation, which is now being largely controlled by Anglo-Persian interests."

"The Persian government insists it is willing to bring the oil dispute before any tribunal in the world for arbitration. The Persians deny the British statements that the present depression and diminishing royalties have provoked them to such a step. They assert the Persians are not bargaining with oil, but with the income from royalties, and they point to their 1,000,000 pound revenue, held in London, as proof of this."

"Originally the 60-year concession provided for royalties of 16 per cent, which is slightly more than the average figure in oil concessions elsewhere."

"From 1911 to 1919, however, the Persians assert, they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties."

"The Persians assert, they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties."

"The Persians assert, they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties. In 1919 they received only 10 per cent in royalties."

# Federal Elections Predicted Soon

## U. K.-CANADA PACT CALLED FISCAL FRAUD

Jan MacKenzie Criticizes Treaty As Fake On Consumers

WINNIPEG, Nov. 29.—Bound for home after attending the recent session of parliament, several Liberal members, including Hon. Charles Stewart, former minister of the interior, were the principal speakers at a rally held here tonight. Mr. Stewart declared in the interests of Canada there must be "a fight about flags" regarding the Bennett policies and drastic reduction in present tariffs.

Hon. Jan MacKenzie, M.P. for Vancouver, Centre, criticized the Canada-United Kingdom pact. "This document is a treasure," he exclaimed. "It is a fiscal fraud, a fake perpetrated on the consumers of Canada."

Predictions that federal elections were in the offing were made by Mr. Stewart.

There is room for argument, however, on the occasional practice of reducing a film almost in its entirety because of the poor quality of the original version. Granted that it is bad business to release a poor film, it is a pity that the practice of releasing a film in its entirety is not more common.

## HOLLYWOOD GOSSIP

INTIMATE GLIMPSES AND INSIDE STUFF ON THE MOVIE COLONY

By DAN THOMAS

HOLLYWOOD, Nov. 29.—A million dollars or fifteen thousand. These are the two extremes in the budgeting of motion picture costs for the coming year. "Cavalcade," the big special now being made by Fox, has a budget of a million dollars—probably more than it will cost more than that. "She Loves Me Not," an independent production, will cost \$15,000.

These figures seem to be indicative of the trend of film production for the coming year. The motion picture industry is going in for big and expensive pictures. Because of the high cost of production, the independent films are taking a chance on crashing the gate with film costing between \$15,000 and \$20,000.

There is room for argument, however, on the occasional practice of reducing a film almost in its entirety because of the poor quality of the original version. Granted that it is bad business to release a poor film, it is a pity that the practice of releasing a film in its entirety is not more common.

## BIG RED POPPY FULL OF DOPE, BANNED IN B. C.

Gorgeous Bloom at One Time Irreproachable, Now Thing of Evil

VICTORIA, Nov. 29.—Apprehended by many who desired to know how to cultivate the larger red poppy which thrives so well in this climate, officials of the British Columbia department of agriculture were delighted to detect an awakening interest in horticulture. Enquiries redoubled and included many queries from farmers, residents of Alaska, and other countries, not heretofore given overmuch to such study that was the character of the poppy.

For a time importation of dried poppy heads pushed the dried poppy especially in channels which might not ordinarily be expected to receive such supplies. Enquiries were made intensively of the Dominion authorities, and were answered to date in advice from the Royal Canadian Mounted Police.

The large flowering red poppy of British Columbia, it seems, contains three times as much morphine as may legally be sold by a druggist in any medical preparation. Its toxic content is not far from that of the opium tree, and it is the source of the opium trade in the far east.

The C. P. C. has said that the poppy culture must cease, and that commercial development or sale of the poppy must be stopped. The government is proceeding under the Narcotics Act.

The large flowering red poppy of British Columbia, it seems, contains three times as much morphine as may legally be sold by a druggist in any medical preparation. Its toxic content is not far from that of the opium tree, and it is the source of the opium trade in the far east.

## GIRL 21 ACTS LIKE A CHILD

DEAR MISS DIN:—I am a girl 21 years old. My mother is dead and my father married again. I have always been petted and spoiled and done just as I please, so I don't get along with my stepmother, although she would be good to me if I would let her. She is as good to my father as I can be. I left home and I don't want to go back and I don't want to work and I want my father to provide me with plenty of money. What must I do?

IN TROUBLE.

Answer:—I should think you are in trouble, terrible trouble, and you will always be in trouble as long as you live, as long as you act like a silly spoiled girl instead of a sensible young woman.

You see, you are being perfectly selfish, considering no one but yourself, and no self-centered selfish person can possibly be happy. Because they never can get all they want. They never can always have the centre of the stage and they never can make everybody bow to them.

According to your own story you have left home without reason. Your stepmother is good and kind to you and would be a real mother to you if you would permit it, and I think your father has done exactly right and the only thing that will bring you to your senses by refusing to support you while you nurse your grudge against him for marrying again.

DOROTHY DIN.

The thing for you to do is either to go back home and apologize to your father and your stepmother and make yourself pleasant and agreeable to live with or else get a job. Of the two courses that would be the better one because it would give you something to think about besides yourself and make you of some use in the world. A healthy, intelligent girl of 21 should be ashamed to be a parasite and expect somebody else to provide for her. There is no more reason for her being a loafer than there is for a man of the same age.

DOROTHY DIN.

DEAR MISS DIN:—I have a 10-year-old child who runs to her grandparents when mother says "No," and they give her just what she wants. Instead of helping me obtain obedience from her they encourage her in disobedience, and when I try to reason with them I am told that I am unappreciative and narrow and stubborn and asked who I would lay things on if I wasn't for grandma or grandpa. Fully appreciate all my parents have done for us, but I feel they are ruining my daughter. What must I do?

MOTHER.

Answer:—Move away from the sphere of grandmother's influence if you can, but it is a queer thing that your mother hasn't intelligence enough to see what harm she is doing to the child.

In these days when heaven knows it is hard enough to establish any sort of authority over children anyway, all of the grandparents should stand together and back each other up. Children are quick. They know when they can appeal from one decision to another and slip out of doing anything that they want.

Grandparents regard their grandchildren just as toys to be played with and seem utterly oblivious to the fact that their injudicious spoiling may be forming habits in the children that will wreck their whole lives.

It is a great pity, but nothing can be done about it because they are impervious to argument.

DOROTHY DIN.

All the blood in your body has to go through your lungs 3,000 times each day.

## Your Children

By OLIVE ROBERTS HART

A COMMON POLITE IN POLITENESS

"Hello, Mister!" Danny smiled at the policeman waiting for his car. In the most friendly fashion.

"The man started down at him with great dignity. He did not answer. Just a child with a child's easy familiarity wasn't important."

Danny smiled again a bit of politeness for awhile. Then he went over and stared at the fruit on Tony's stand.

"Hello, Tony! How's business?" Tony looked surprised and suspicious as he shoved a dozen bananas into a paper bag.

"You get out here, kid. And don't call me 'Tony'! You are a smart fellow with your 'Tony'! In Mr. Savarini's you."

A PEZZLED YOUNGSTER

Danny had to wait anything. He wasn't holding for a hand-out. He shuffled his hands in his pockets and marched away.

## Milady Beautiful

By LOIS LEADS

GROWING GRAY GRACEFULLY

Milady's discovery of her first gray hair has been the subject of much joking, but it is no laughing matter.

As one is ready enough to assume a gray or silver coiffure on some one else, but when it becomes a personal matter we are less enthusiastic. It is feminine nature to want to keep the hair color of youth and this accounts for the popular popularity of dyeing.

Yet there comes a time to many women when gray hair seems preferable to dark. Women who have been dyeing their hair find it hard to make the transition. If they just stop using the dye the new gray growth looks very unsightly.

There are several ways of meeting this beauty problem, so that one may grow gray gracefully.

One method is to continue using the dye on the top layer of hair on each side of the part while the rest of the hair is left untouched.

If the under layers of gray hair show through this top layer they may be touched with mace, a special colored pencil or rinse that will wash off during the shampoo.

When the gray portion has become long enough, the dye can be applied to the hair changed to the other side, so that the layer of hair was kept dyed may be cut out and the old part covered with new gray hair.

If this dyed hair cannot be spared, it may be bleached with a suitable chemical. This method of bleaching the transition from dye to gray hair by bleaching the coiffure is preferable at all times, but, of course, when the time for changing the part arrives, a very radical and sudden alteration is made in one's appearance.

One day the coiffure looks all dark and the next it is entirely white. A more artistic and gradual way of changing from dark to gray or white is recommended by a leading New York hairdresser. The aim of this method is to make the hair appear as though it were growing naturally.

It is usually started at the temples and a little below, on time spots are left free from dye while regular intervals.

When the under white hairs have grown long one may begin increasing the area by dyeing less and less of the hair. If the process is carried out slowly enough the gray will grow in naturally.

When the goal of an all-gray or white coiffure has been reached one must be sure to give the hair the sort of care that will increase its beauty. Readers who are interested in the subject may have some of my leaflet on "Shampooing and Rinsing" if they will write for the list and return it to the address stamped, addressed envelope which I may mail the leaflet.

## Who Are You?

CHILDREN'S SANDWICHES

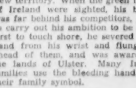

Children who take lunches to school each day get tired of sandwiches without realizing why. Variety always adds interest to them. Why not get a few fancy ones? The brown and white bread together for a cream cheese and jelly sandwich. Make some date bread for a change. Try watercress instead of lettuce. Every effort you make to vary their sandwiches will be amply repaid by the increased interest in their lunches.

This is an illustrious family of Erin and has produced many notable sons and daughters in many fields of the world. Strange to relate, one O'Reilly was a Spanish general in the middle eighteenth century. Count Andrew O'Reilly was an Austrian field marshal born in Ireland in 1748. The Most Reverend Edward O'Reilly was Archbishop of Armagh in Dublin in 1868. Another Edward O'Reilly was a noted Irish author. Hugh O'Reilly was a famous barrister in Ireland, born in County Cavan. He served as master in chancery and clerk of the council under James II. Colonel John Reilly or O'Reilly was the celebrated commander of the Reilly Dragoons in Ireland, which regiment he raised and maintained at his own expense. He was the first to drop the O to his name, but it still just how to wash the hair and how to remove the yellow scales which often mar its beauty.

The World Building, built about 20 years ago, is generally considered New York's first skyscraper.

**ANS by**  
**—BILL LEWIS—**

Despite the extremely mild weather of yesterday, which forestalled the postponement of last night's scheduled Senior Amateur League game, hockey fans here had their linings by securing the lineup of players secured by Duke Kees for his Edmonton entry in the new Western Canada pro circuit. And, I think, the consensus of opinion seems to be that the Duke has secured a magnificent collection of purchasing talent for his Edmonton team.

He has a squad that appears to possess everything needed in a fast-striking minor league hockey club.

Players of the class of Gagin, Kenney, Robertson, Scott, Dunn, Maher and the like—not forgetting his Green, the Duke has—seem to be bound to please Edmonton fans with their speed, power and all-around ability.

They have the class needed to turn in a highly promising brand of hockey—and I think they will.

Gagin, smooth-skating master of right wing on the old Edmonton, will be welcomed back with open arms by Edmonton fans. Time has treated the "Fighting Frenchman" kindly and he should be the same Gagin of old when the new league swings into action here Wednesday. That he has not lost his ability is shown by the fact that he would be with the Edmonton Senators again this season if he is desired. Alan has always been the best center in the league with the result that he still possesses wonderful condition and is in shape for a first winter.

The right-wing wing donated the blades for the first time yesterday just to get into the action of today's workout and showed the results that they have a real old class and will show even more than they have.

Chuck Dunn, the flying centerman, Chubby Scott, wingman from the American Hockey League, Earl Robertson, Duke's promising young goalie, are due here to start training today.

And from now on the team will begin to take definite form in order to be ready for the opening by Calgary Tigers in the opening game a week from tonight.

Heading to Winnipeg today are the Regina Capitals, who are scheduled to play the Regina Capitals of the Western Canada's greatest hockey league. The Capitals have a history of the greatest team in the Dominion. It is a team filled with fight and spirit, and it is the Capitals who are taking East for the Dominion championship battle with Hamilton.

If they are able to break the Eastern supremacy in senior football in this case, it is a real feat. It is a feat which the real game will make sensational. It will show Western provinces, and possibly swing the balance of the sport westward towards the Rockies.

## OLYMPICS BEST CLEVELAND SIX

### Stirring Overtime Gives Detroiters Edge

DETROIT, Mich., Nov. 30.—After two dreary periods of uneventful hockey, Detroit's Hornets and Cleveland Indians put on a surprise burst in the last minute of overtime to win the game.

All the action was in the third period and the overtime. The Detroit goal coming in the extra session and one tally for Cleveland. The Indians' Brophy, Mike and Borrie, figured in every Cleveland goal. Borrie scoring twice and Mike having the play for a third tally.

The following lineups were used:

Lineup	Goal	Defense	Forwards
Detroit	Carl	Carlson, Galt	Brophy, Mike, Borrie
Cleveland	Carlson	Carlson, Galt	Brophy, Mike, Borrie

**STADIUM**  
First Period—Detroit, 0-2 (Brophy, Mike, Borrie). Second Period—Detroit, 0-0. Third Period—Detroit, 1-0 (Brophy). Overtime—Detroit, 1-0 (Brophy).

The addition of small amounts of red dirt on the winter dirt has greatly increased ice production.

Look for the age strip on each bottle.

## GOATHAM TEAM REACHES FORM IN HARD GAME

### He's Threat Of Regina's Title Squad

**Roamers Outplayed, Every Turn on Home Ice—M. Murdock and Joe J. Supply Fistic Thrills**

BOSTON, Nov. 30.—The speedy New York Rangers hit their stride last night and overcame the Boston Bruins for a 4-4 decision in a hard-fought National Hockey League game.

The Bruins were outplayed at almost every stage as they went down to their first defeat of the season on their home ice. The Rangers were paced by the Cook Brothers as they piled up the score and the head-checking Ching Looch kept the Bruins off balance.

Both teams had their combination forces working to perfection and it was not until the third period that the Bruins began to show signs of life. The Cook Brothers scored the winning goal in the third period, after a close race.

Here is Curt Schaefer's battle field star with the Regina Roughriders who are going East for the Hamilton, Ontario, Saturday. He is one of the outstanding stars in Western Canada football and will be a decided threat to the eastern defenders of the Canadian title.

**PERFECT GRIDIRON**  
Football For Game

HAMILTON, Nov. 30.—The odd spectacle of a Canadian football field played under perfect conditions was the highlight of Saturday's game.

Crises here believe Regina Roughriders may find weather and ground conditions to their liking.

And provide an eastern audience with the first really significant display of prize football power since inauguration 15 years ago of inter-provincial games.

**NEW LIGHT WORK**  
With the Riders on their way east, the light work of the Riders is likely to include in only light action for the classic battle.

It should be a grueling struggle, but it should not be as heavy as the Riders' last night's game.

It should be a grueling struggle, but it should not be as heavy as the Riders' last night's game.

**SENATORS SHADE Windy City Six**

OTTAWA, Nov. 30.—Ottawa Senators took Chicago Black Hawks into camp here last night 3-1, winning a fast, rugged National Hockey League game with a third period comeback.

A broken rink protected by a heavy pad, Frankie Peterson broke the deadlock with a goal in the first period.

Joe J. Supply scored the winning goal in the third period, after a close race.

**HAWK GAMES IN STADIUM AGAIN**

McLaughlin is in Accord With Rink Bosses

CHICAGO, Nov. 30.—Chicago Black Hawks will return to the Chicago Stadium for the balance of the National Hockey season Sunday Dec. 4, when they will meet New York Rangers.

**RIDERS POINT FOR HAMILTON ON SATURDAY**

Western Champions Leave Regina on Fourth Bid For Title

REGINA, Nov. 30.—There was no blaring of brass bands or fanfare of trumpets, to use the old expression, as Regina Roughriders, champions of senior rugby in Western Canada, set off Tuesday night on their fourth consecutive trip westward in search of a Canadian honor.

Led by Coach Al Ritchie, players and officials of the team, who are going East for the Hamilton, Ontario, Saturday. He is one of the outstanding stars in Western Canada football and will be a decided threat to the eastern defenders of the Canadian title.

Just before the train pulled out on the first leg of the journey that ends at Hamilton, Ontario, Friday morning, Ritchie admitted to reporters that his 1932 team was smaller than any other in the league, but was careful to add that the easterners were not exactly intimidated.

There is not a single injury in the Regina team, and every member is fit for the work at Winnipeg, Wednesday, where the Riders will play the first game of the season.

Howie Miles, western official representing by Hamilton, was careful to make the trip, a sudden spell of sickness sending him to bed a few hours before the team left. Efforts are being made to have Lyman Van Fleet, Winnipeg, appointed in his place.

Players who made the trip included: Left end Bush; right end Thompson; left tackle; Garuk; right tackle; Barber; left line; Lusk; right line; Campbell; snap; De Fraite; quarter; Schaefer; fullback; and center.

Howie Miles, western official representing by Hamilton, was careful to make the trip, a sudden spell of sickness sending him to bed a few hours before the team left. Efforts are being made to have Lyman Van Fleet, Winnipeg, appointed in his place.

**GOLFING CZAR UNDISTURBED BY REBELLION**

Leading Money Players Form Independent Tournament Bureau

CHICAGO, Nov. 30.—Albert R. Galt, business administrator of the United States Professional Golfers' Association, just pulled away on his big black car, yesterday, as he left the city of Chicago, to accept an invitation to meet Southern California in the annual Tourney of Champions.

The Tourney was received and accepted last night by the western end, and it was unofficially announced that the western conference and undefeated or tied, would be their choice as opponents.

**TIGERS DISCUSS WESTERN RIVALS**

HAMILTON, Ont., Nov. 30.—Hamilton Tigers discussed their work last night in talking over their plans for the Canadian Rugby final here next Saturday with Regina Roughriders.

Only absence was Frank Turville, star backfielder who is walking out with the flu. A case of influenza has been reported.

Turville himself will be in the game next Saturday but then he will be out of the game for a while. He would take a month for him to be in the game.

**HITLER IGNORES CONFERENCE CALL**

BERLIN, Nov. 30.—Adolf Hitler, the Nazi leader, agent a political conference today which was to appear in the capital for a conference on the subject of the German situation.

Reports last night said the Nazi had agreed to meet the power behind the present German government, and that he had been in Berlin since last night.

**Marlboro Blank Toronto Students**

TORONTO, Nov. 30.—Jim Primack, star of the blue line, was the second period that looked through goalie Harry Shipps' pads.

Marlboro's new association includes most of the big money winners of the P.G.A. among them: Gene Sarazen, Walter Hagen, Bill Burke, Willy Cox, Ed Dudley, Harry Vardon, Joe Kirkwood and Horton Smith.

**South Side Bank Doors Found Open**

Winnipeg found open at 3 a.m. Wednesday when Constable H. Hopper, after a long search, arrived there. A rapid survey made tonight showed that nothing had been disturbed.

Reports last night said the bank had agreed to meet the power behind the present German government, and that he had been in Berlin since last night.

## STETTLER ICE SQUAD BEATS LACOMBE, 4-2

Open Big Six Hockey Loop With Victory on Tuesday Night

LACOMBE, Nov. 30.—In a loose-played game, the Stettler Ice Squad opened the Big Six League season on the Lacombe ice with a 4-2 win Tuesday night.

The ice was very heavy and both teams tried easily. Lacombe was short-handed on defense and Stettler filled in for the first game.

Duckworth passed to Good for the first Stettler goal after one minute of play. Nichol secured the second goal for Stettler.

## 'PEG OFFICERS MAIN THREAT BEHIND MOVE

Eastern Cities Willing Due To Dissatisfied Amateur Conditions

MONTREAL, Nov. 30.—The Gazette states a team-Canada Association of Amateur Hockey League, planned on a scale "big enough to rival the million Canadian Amateur Hockey Association," is in the process of procuring a group of influential sportsmen from Winnipeg, Toronto and Montreal, according to a high authority in the new movement.

**DISSATISFIED**  
Tentative plans have been drawn up, the paper learns, and the new association will take the C.A.H.A. banner in the three hockey centres, which are said to be the most dissatisfied with conditions now prevailing in the Dominion's amateur hockey affairs.

The movement was born recently in Toronto when Winnipeg sportsmen conferred with Queen City enthusiasts. The latter group is dissatisfied with the C.A.H.A. and a representative went to Montreal to invite a prominent local sportsman of long standing into the body.

The movement of a cup or shield, such as the Allan Cup, to emphasize the importance of the championship of the new association is apparently a worry of small consequence," the Gazette states. It is planned to request that Lord Dufferin, Governor General of Canada, donate a cup or shield to the new association.

## WHEAT VALUES FAIL TO HOLD EARLY GAINS

WINNIEP, Nov. 30.—In the face of fairly heavy selling from local sources in the last hour, wheat values failed to hold advances accumulated when export figures reached 1,000,000 bushels, and the close found futures 1/4 to 1/2 lower for the day.

November closed at 40 1/2, December at 41 1/2, May at 47 1/2, and July at 49 1/2.

Export during the early part of this session included sales to the continent from New York, but offerings elsewhere fairly liberal on the hedge and prices fell back gradually during the late afternoon, but there appeared to be plenty for sale on the advance.

But, temperatures now pointed to Argentina and while this will hasten the harvest in the north without much damage it may have serious results in the south where premature opening would seriously curtail yields and thus quality.

Competition of Australian wheat in the United Kingdom but increasing in not competitive, and in any case is not being pressed at the moment.

Exporters and shippers were in the east wheat market for fair quantities of No. 1 northern and No. 1 durum to complete cargoes, but interest in other grades was dull. No improvement in the demand for extra cargoes was noted and sales were limited.

## RAIL STOCKS LOSE GROUND AT NEW YORK

NEW YORK, Nov. 30.—The stock market slipped through the lower limits of its recent trading range today. The market picked up a little speed on the morning, but was not strong enough to suggest more than normal demand for securities. The market was not strong enough to suggest more than normal demand for securities. The market was not strong enough to suggest more than normal demand for securities.

Favorite industrial and utility stocks during the September rise were among the leaders. United Aircraft, American Telephone, and American Can lost two points or more. U.S. Steel preferred slipped three points or more. Mid-week business indices again advanced to the seasonal season of the year, although electric power production and car loadings showed fairly steady declines.

Commodity prices as a whole showed a slight decline, although cotton advanced. There was a slight weakening of copper quotations, presumably influenced by a rise in the international export conference now under way. Standard Oil of New York announced a reduction in gasoline prices in sections of the country.

## Whitney Letter

NEW YORK, Nov. 30.—As yet nothing of a definite nature has developed in the market which would make an intelligent forecast of the price movement in the immediate future possible. To that extent therefore think point should be maintained and about setting aside. It could be said that the price of securities is not the market but in the system for it.

As mentioned and thrice as well as in these dull days appear, as a matter of fact it is the best that the market has seen for some time. It is a fact that the market is not strong enough to suggest more than normal demand for securities. The market is not strong enough to suggest more than normal demand for securities.

As mentioned and thrice as well as in these dull days appear, as a matter of fact it is the best that the market has seen for some time. It is a fact that the market is not strong enough to suggest more than normal demand for securities. The market is not strong enough to suggest more than normal demand for securities.

## These Two Envoys In Limelight

SIR RONALD LINDSAY, top; PAUL CLAUDET, below.

## What has made Business Better this Fall?

FOR the past 10 weeks without a break the new insurance purchased from The London Life by Canadians has been greater than for the corresponding weeks of 1931. It is noteworthy, too, that our new insurance for the year to date is greater than for the same period last year.

What's the reason?

We ascribe it to two things:

1. People are realizing the need for life insurance (a) to afford financial protection to dependents (b) as an investment to rebuild fortunes, large or small. Their confidence in Life Insurance is built on the fact that it has never failed to fulfil all its obligations.
2. Our representatives are enthused by the service rendered by Life Insurance and by the Company they represent.

The London Life's strong financial position has been built by years of faithful stewardship.

### COCOS TREASURE CONCERN SUED

VANCOUVER, Nov. 26.—While succeeding in supreme court Chief Justice Aukley Macdonald in awarding a garnishee order attaching \$1175 to their credit in a Vancouver bank, Cocos Island Treasure Ltd., gained only a partial victory.

His Lordship granted plaintiff Namea A. McDonald, marine engineer, Vancouver, leave to issue an order of attachment against the company, which was to be paid to the plaintiff by the company's expenses of \$100. On his recovery, McDonald was to be re-imposed as cook at the same salary, \$250 a month.

Cocos Island Treasure Ltd. is conducting a search for treasure on Cocos Island, off the coast of Costa Rica.

### Minister Shoots Youth For Bear

GRAND FALLS, N. B., Nov. 26.—Thinking he was killing a bear, Rev. E. Parkman, rector of St. George's church at Grand Falls, N. B., fired, Donald McDonald, 20, and killed him.

The bullet passed through his body and killed him.

Delivery of Prince Edward Island potatoes to Toronto by the water route is a new development in St. Lawrence-Great Lakes transportation which has taken place recently.

### VISIT the OLD COUNTRY this CHRISTMAS

Rate as much lower this year than in the past.

Free of all expenses.

Reduced fares.

### Dog Owners Go Feedless To Pay Tax

WINNIPEG, Nov. 26.—Seven-to-dog-owners who have been unable to pay their taxes for their dogs are being dealt with leniently in police court today.

A few said they had gone without a few meals and saved money as they could not pay for the tax.

The officers were given a week in which to pay the tax.

Some agreed to pay the tax.

Others refused to pay.

The court ordered the dogs to be impounded.

### RURAL ONTARIO GOES POLITICAL

TORONTO, Nov. 26.—Rural Ontario is becoming a political power.

The province has been divided into two main political groups.

The first group is the Farmers' Union.

The second group is the Ontario Agricultural Association.

The Farmers' Union is the largest and most powerful of the two.
